All players must join their team & pay competition fees (and be currently registered) via the online process before they can take the court for round 1. A team list of players who have joined will be forwarded to the team contact before the commencement of competition. The team contact must ensure all players have joined their team prior to commencement of competition and follow up any players who have not joined. If players have not successfully joined their team prior to round 1 they may not be allowed to take the court until the online process has been completed.

Team Support BENCH SCORER

All teams will require a bench scorer, if a scorer is not allocated at the start of the game the team may be penalised.

Electronic Scoring

Courtside scoring will be used from Round 1 of competitions. This is iPad based and replaces the paper scoresheet. Again, it is imperative that each team supply at least one person to do scoring duties for their game.

Player & Coach Behaviour – (please see additional information below)

In an effort to control inappropriate player behaviour we have implemented the following penalties for an accumulation of Technical Fouls during the season. Please read the below Code of Behaviour for players and coaches.

4 per year – 2 playing week suspension

6 per year – 4 playing week suspension

8 per year – 8 playing week suspension

10 per year – Rest of Season suspension, plus next season suspension.

These penalties are separate to any penalties handed down by the Disciplinary Tribunal.

A player who receives a technical foul will be substituted out of the game for five (5) minutes and cannot be replaced by another player for the duration.
